

Sourcing For a Better World.

MiGo was founded with the vision of manufacturing, customizing and distributing medical and household products at reasonable prices. This promise continues today through our redundant network of global suppliers that allow us to reliably provide our products to customers around the world. MiGo has a proven track record of success, including private label collections for the retailers, because we understand the market, what it takes to make good products, and to reliably deliver the products while upholding the highest quality standards for efficacy and safety.

MiGo offers a comprehensive portfolio of medical products and PPE that is designed to meet the evolving needs of the Healthcare, Workplace, Personal and Education markets while navigating through the constraints of the global supply chain. Our continued success is also a direct reflection of the diverse set of competencies of our senior management team, who takes pride in creating quality products while providing the highest quality of service to our clients. We understand in real-time, the needs of our clients. Leveraging longstanding relationships with global manufacturing partners and strategizing to deliver products that are superior in quality, while maintaining rationale pricing.

We value integrity, honesty and transparency; practicing the highest principles of business ethics while adhering to strict industry standards. We are dedicated to providing superior quality products, respecting timelines and meeting time-sensitive deadlines, while maintaining our commitment to customers' needs by working together to develop long term solutions.

MiGo is your trusted partner. There is no room for compromise.

- GLOBAL HEADQUARTERS
- MANUFACTURING FACILITIES

Our production philosophy is centered on unwavering quality leading to strong customer satisfaction and loyalty.

- Personnel onsite at each facility to oversee production
- Large in-house Experienced Production Team
- Fittings directed by our industry experts to ensure quality fit
- Packaging control measures to ensure consistent quality
- Consistency in the quality of our product due to redundant QA/QC
- Our long-standing relationships with our manufacturing partners enable us to implement best-practices to ensure the top standards in testing and QA are upheld
-  and  certified facilities

We design, source and produce each order with the utmost care and dedication to delivering the best in quality and workmanship in a timely manner.

- A-to-Z in concept to shelf
- Ensure on-time delivery by reducing non-value added time and cost through real-time tracking technology and utilizing advanced analytics
- Partnerships with our factories/global sourcing options
- Nationwide warehousing for just-in-time delivery
- Large Scale Replenishment Programs
- Extensive network of distribution centers and logistics partners
- Provide expertise in global transit
- Responsive local, national and global customer service

FACE MASKS

Surgical Mask

- 3-ply Surgical Mask
- Size: 175 x 95mm
- 2 Layers of Non-woven Fabric
- Middle Melt-blown Fabric
- Medical Surgical
- 1-year Validity Period
- Surgical Use

FACE MASKS

LEVEL 1

ITEM CODE

3PLY-ASTMLE1

DESCRIPTION

3PLY LEVEL 1 FACE MASK W/EAR LOOP

STANDARD

ASTM F2100-2019

Resistance to penetration by synthetic blood, minimum pressure in mm Hg for pass result: 80mm Hg

Differential pressure, mmH2O/cm2 (Breathability): <4.0

Bacterial filtration efficiency: ≥ 95%

Sub-micron particulates filtration efficient at 0.1micron: ≥ 95%

CASE QTY

50 pcs/box
2000 pcs/carton

PACKAGE

Box: 20*10*9MM
Carton: 55*42*38MM

FACE MASKS

LEVEL 2

ITEM CODE

3PLY-ASTMLE2

DESCRIPTION

3PLY LEVEL 2 FACE MASK W/EAR LOOP

STANDARD

ASTM F2100-2019

Resistance to penetration by synthetic blood, minimum pressure in mm Hg for pass result: 120mm Hg

Differential pressure, mmH2O/cm2 (Breathability): <5.0

Bacterial filtration efficiency: ≥ 98%

Sub-micron particulates filtration efficient at 0.1micron: ≥ 98%

CASE QTY

50 pcs/box
2000 pcs/carton

PACKAGE

Box: 20*10*9MM
Carton: 55*42*38MM

FACE MASKS

LEVEL 3

ITEM CODE

3PLYASTMLE3E

DESCRIPTION

3PLY LEVEL 3 FACE MASK W/EAR LOOP

STANDARD

ASTM F2100-2019

Resistance to penetration by synthetic blood, minimum pressure in mmHg for pass result: 160mm Hg

Differential pressure, mmH2O/cm2 (Breathability): <5.0

Bacterial filtration efficiency: ≥ 98%

Sub-micron particulates filtration efficient at 0.1micron: ≥ 98%

CASE QTY

50 pcs/box
2000 pcs/carton

PACKAGE

Box: 21*11*12MM
Carton: 58*44*49MM

FACE MASKS
