

Sourcing For a Better World.

MiGo Trading was founded with the vision of manufacturing, customizing and distributing packaging solutions at reasonable prices without compromising on the highest quality. This promise continues today through our redundant network of global suppliers that allow us to reliably provide our products to customers around the world. MiGo Trading has a proven track record of success, including collections for the various industries, because we understand the market, what it takes to make good products, and to reliably deliver the products while upholding the highest quality standards for efficacy and safety.

MiGo Trading offers a comprehensive portfolio of flexible packaging products that is designed to meet the evolving needs of the market while navigating through the constraints of the global supply chain. Our continued success is also a direct reflection of the diverse set of competencies of our senior management team, who takes pride in creating quality products while providing the highest quality of service to our clients.

We understand in real-time, the needs of our clients. Leveraging longstanding relationships with global manufacturing partners and strategizing to deliver products that are superior in quality, while maintaining rationale pricing.

We value integrity, honesty and transparency; practicing the highest principles of business ethics while adhering to strict industry standards. We are dedicated to providing superior quality products, respecting timelines and meeting time-sensitive deadlines, while maintaining our commitment to customers' needs by working together to develop long term solutions.

MiGo Trading is your trusted partner. There is no room for compromise.

- GLOBAL HEADQUARTERS
- MANUFACTURING FACILITIES

**Our production philosophy is centered on unwavering quality leading to strong customer satisfaction and loyalty.**

- Personnel onsite at each facility to oversee production
- Large in-house Experienced Production Team
- Fittings directed by our industry experts to ensure quality fit
- Packaging control measures to ensure consistent quality

- A-to-Z in concept to shelf
- Ensure on-time delivery by reducing non-value added time and cost through real-time tracking technology and utilizing advanced analytics
- Partnerships with our factories/global sourcing options
- Nationwide warehousing for just-in-time delivery
- Large Scale Replenishment Programs
- Extensive network of distribution centers and logistics partners
- Provide expertise in global transit
- Responsive local, national and global customer service

### **EXTRUSION**

Mono and COEX production up to 5 layers Extrusion Machines

### **SLITTING**

Slitting and cutting in sizes starting from 2 cm Slitting Machine

### **GRAPHIC DESING**

Industry-specific software and desing programs of Flexo Printing

### **CONVERTING**

All kinds of bags in our product range can be converted in our converting lines

### **LAMINATION**

Lamination process  
BOPP+CPP,PE+PE,BOPP+BOPP,PET+PE,BOPP  
+PE,PE+BOPP PE+CPP, Pearlized combinations

### **STRETCH**

Stretch production starts from 6 mic.

### **FLEXO PRINTING**

Print up to 200 cm wide and 8 colors  
Printing Machines

### **RECYCLING**

Recycling of polyethylene products  
Washing & Recycling Machines

# Research & Development

## Principles

- Customer Oriented Product Development
- Anticipating Flexible Packaging Trends
- Environmental Friendliness

## Functions

- Product Development
- Innovation
- Efficiency of Production

# Quality Management

## Principles

- Customer Oriented Quality Management
- Ensuring Product Reliability
- Continuous Training and Development

## Functions

- Managing Corporate Document Infrastructure
- To Apply High Hygiene Standards
- Improving Safety Conditions

# The Closed Loop Recycling

100% Collecting  100% Recycling  100% Using 

- ✓ Our Environmental Friendly Approach is
- ✓ "THE CLOSED LOOP"
- ✓ Use plastics, COLLECT and RECYCLE them %100

# Recycling & Post Consumer Plastics

## OUR STRATEGY

Reduction of waste

Over 80% less use of Fossil resource

**MAKE YOUR WASTE VALUABLE**

- ✓ EcoRiver is an investment for Our Environmental Friendly Approach
- ✓ Consists of at least 80% post consumer recycling (PCR) material 100% recyclable
- ✓ Largely independent of raw material price developments if there is a closed material loop
